burmatex, the leading supplier of fibre bonded, structure bonded and tufted carpet/carpet tile, is renowned for its innovation and expertise in the manufacture of carpet, carpet tiles and top quality specialist barrier and entrance matting products.

burmatex products have been BREEAM rated since 2005 and currently achieve BREEAM's A+ environmental rating, all tiles are manufactured with the Accumen™ backing system incorporating >70% recycled content.

All **burmatex** products are rigorously tested and supported by a full 10 year guarantee making them ideal for heavy contract applications. These ranges are especially suited to commercial offices, universities, schools, colleges and public buildings where providing a well-designed attractive, enduring and environmentally friendly environment is paramount.

Our creative design team proves that producing attractive, flexible, contemporary flooring that delivers first class performance is about the alliance of design and technical expertise.

burmatex's continuously expanding portfolio introduces harmonious and flexible product ranges providing innovative possibilities. With a range of textures and colours, our designs can enhance the creative flow within a project, effortlessly complementing other interior finishes for a striking effect.
